

MIGS VEGETABLES FARM UPDATE

Hello Nils,

This just to update you on what we have been doing since we received the Greenhouses.

- We have since cleared the area, and casted the foundation posts.
- This week we concentrated our efforts on working the topsoil to loosen it and fill areas that need filling.
- We have also started installing the Greenhouses, one pole at a time.
- Our goal is to get the installation as far as possible before the end of the year.
- We plan to complete the installation by February, and start production by March 2015.

Preparing the top soil within the Greenhouse space before installation
